

## Venezuelan Delegation For the 39th World Zionist Congress – Elections Results

Submitted to: Venezuelan Area Election Committee

Prepared by: EventMagix

Election Operations and Supervision Team (Rami Laor & Shlomi Ashkenazi)

Date: *Wednesday, 27 August 2025*

### Objective

This document provides the official election results and a factual summary of voting statistics for the Venezuelan Delegation.

It also outlines the distribution of votes by country, city, IP address, and identifies votes made through VPN/Proxy/Hosting providers and foreign residential ISPs.

The VPN/Proxy/IP analysis is included because this matter was specifically raised during the registration period and required independent system verification.

### Purpose

The purpose of this report is to:

- Present the official election results.
- Provide an analysis of the source of votes by country, city, and IP address.
- Identify cases of duplicate IP usage and VPN/Proxy/Hosting activity.
- Clearly distinguish between foreign residential votes (possible legitimate voters abroad) and foreign VPN/Hosting votes (confirmed non-residential networks).
- Support the Area Election Committee in ensuring the fairness, transparency, and integrity of the election.

### Aim

The aim of this analysis is to:

1. **Ensure integrity** – confirm that every vote respects the “one person, one vote” principle.
2. **Identify anomalies** – highlight duplicate IPs and proxy usage.
3. **Classify foreign votes** – distinguish between voters possibly abroad (residential ISPs) and confirmed VPN/Hosting traffic.
4. **Support decision-making** – provide the Area Election Committee with clear data for acceptance, review, or disqualification of suspicious votes.

### Goals

- **Transparency:** Provide full clarity about how and from where votes were cast.
- **Objectivity:** Present data factually, without assumptions
- **Accountability:** Highlight facts for official review.

- **Trust:** Strengthen confidence in the fairness of the electoral process.

#### Overview

|                             |     |
|-----------------------------|-----|
| <b>Total voters on list</b> | 268 |
| <b>Total votes cast</b>     | 255 |
| <b>Turnout</b>              | 95% |

This is a strong level of participation. However, analysis of IP addresses shows that not all votes came from unique personal devices inside Venezuela. Some were cast via VPNs, proxies, or foreign networks.

#### Votes by Country (IP Origin)

| Country       | Votes |
|---------------|-------|
| Venezuela     | 219   |
| United States | 24    |
| Panama        | 3     |
| Uruguay       | 2     |

|                    |   |
|--------------------|---|
| Netherlands        | 2 |
| United Kingdom     | 2 |
| Dominican Republic | 1 |
| Ecuador            | 1 |
| Mexico             | 1 |

**Total 255**

#### Multiple Votes from the Same IP (>4 votes)

| IP Address      | Country   | City    | Votes Recorded |
|-----------------|-----------|---------|----------------|
| 190.153.117.182 | Venezuela | Caracas | 11             |
| 190.94.218.10   | Venezuela | Caracas | 6              |
| 200.75.154.104  | Venezuela | Caracas | 7              |
| 190.153.91.219  | Venezuela | Caracas | 6              |

**Total 30**

| Naguanagua             | 1          |
| Mérida                 | 1          |
| Los Teques             | 1          |
| Petare                 | 1          |
| Guatire                | 1          |
| Barinas                | 1          |
| <b>Total Venezuela</b> | <b>219</b> |

According to the decision of the Appointed Area Election Committee :

- More than 4 votes from one IP -30 Records
- Any individual that his IP was out of Venezuela -36 Records

These have been removed from the official election results .

Based on those 2 facts we have 189 eligible votes from the total of 255 that participated at the Elections.
