Adi Leon

of blessed memory

Son of Nurit and Amir,
brother of Zohar and Ori

Adi was born on 22/2/2003 and grew up
in the settlement of Nili
Adi, or as his family and friends called him,
Adidush or Adidi, was a lively young man
with a constant smile on his face.

A born leader, the star of the group.

He led his friends with grace and humor,
and knew how to create deep friendships over the years.
Adi was an individualist with a lot of self-confidence.
Independent from a young age.

He had his own way and insights
about his path in the world, and from a young age
he knew exactly what he aspired to achieve.

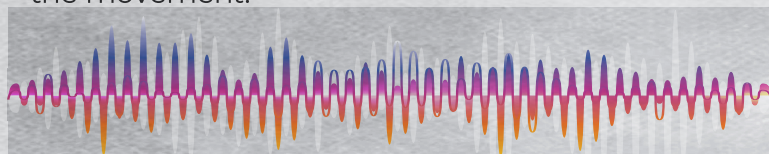

Adi grew up embracing the core values of the 'Maccabi Tzair' youth movement.

He was an instructor in the movement and one of the leading graduates in the Nili branch until his enlistment to the army.

"Maccabi Tzair" was a second home for him.

He used to spend most of his free time at the branch sharing his original music with his friends. Guided by his leadership and values, he inspired many trainees and instructors to take action for the movement.

Adi composed electronic music and dreamed to share his creations around the world.

Music played a central and meaningful role in his life.

His parents built a studio for him in the backyard, where he would spend countless hours composing and playing music without pause. At some point, Adi and one of his best friend started producing parties. They invested in high-quality equipment with money they saved from gardening jobs they did together, and produced many successful events where Adi DJed, playing his music, which was became very popular.

Additionally, Adi opened a YouTube channel and a SoundCloud account where he uploaded his creations to spread them and develop in the music industry.

Before enlisting in the IDF, Adi was determined to become a combat soldier.

He joined the 'Tzabar' battalion in the Givati Brigade in August 2021 and successfully completed his training.

Following an injury, he transitioned to an instructor and command role at the brigade training base. After his recovery, he decided to return to the battalion to his role as a combat soldier alongside his friends.

Adi rejoined the battalion when they took over the Gaza line in March 2023.

When he returned, he said, "... this is the best thing I've done in my life..." He was truly happy serving in the battalion.

During his military service, Adi was also revealed as a talented painter.

He painted everywhere he could improvise in the field, and in his paintings, he managed to express the pride of the "Tzabar" battalion and the infantry company in which he served.

On Saturday, October 7, Adi was called up from the Sukkot holiday straight into the intense fighting in kibbutz Kfar Aza. They were tasked with clearing the kibbutz of terrorists, rescuing citizens and families, while being surrounded and exposed to the atrocities of Hamas.

On October 27, the ground operation inside Gaza began, and Adi was among the first infantry forces to enter the strip for combat. His platoon, the spearhead platoon of the Tzabar battalion, led the battalion's infantry forces.

On October 31, 2023, after several days of intense combat with the terrorists, Adi fell in the 'Namer' disaster. Alongside Adi, 10 other soldiers from the battalion fell when an anti-tank missile penetrated the Namer's defence, leading to their tragic loss.

Adi is no longer with us here,
But his light continues to shine.
